**KVR Solutions, Inc. Attains Gold Certified Partner Status  
In Microsoft Partner Program**

*KVR Solutions, Inc. Further Distinguishes Itself by Earning Microsoft Competencies  
In Microsoft Dynamics, Networking Infrastructure Solutions, and ISV/Software Solutions*

Ocala, Florida, USA — January 09, 2006 — KVR Solutions, Inc., today announced it has attained Gold Certified status in the Microsoft Partner Program with competencies in Microsoft Dynamics, ISV/Software Solutions, and Networking Infrastructure Solutions, recognizing KVR Solutions' expertise and total impact in the technology marketplace. As a Gold Certified partner, KVR Solutions has demonstrated expertise with Microsoft technologies and proven ability to meet customers' needs. Microsoft Gold Certified Partners receive a rich set of benefits, including access, training and support, giving them a competitive advantage in the marketplace.

"We are extremely pleased to have attained Gold Certified status in the Microsoft Partner Program. This allows us to clearly promote our expertise and relationship with Microsoft to our customers," said Kevin L. Reed, President of KVR Solutions. "The benefits provided through our Gold Certified status will allow us to continue to enhance the offerings that we provide for customers."

"Customers are looking for partner companies that can bridge the gap between their business demands and technology capabilities. They need to trust in someone that can act as an expert adviser for their long-term strategic technology plans. Microsoft Gold Certified Partners, which have certified expertise and direct training and support from Microsoft, can build a positive customer experience with our

technologies,” said Allison Watson, Vice President of the Worldwide Partner Sales and Marketing Group at Microsoft Corp. “Today, Microsoft recognizes KVR Solutions as a new Microsoft Gold Certified Partner for demonstrating its expertise in providing customer satisfaction with Microsoft products and technology.”

As one of the requirements for attaining Gold Certified Status, KVR Solutions had to declare a Microsoft Competency. Microsoft Competencies are designed to help differentiate a partner’s capabilities with specific Microsoft technologies to customers looking for a particular type of solution. Each competency has a unique set of requirements and benefits, formulated to accurately represent the specific skills and services that partners bring to the technology industry. KVR Solutions has earned competencies in three key areas: Microsoft Dynamics, ISV/Software Solutions, and Networking Infrastructure Solutions. The Microsoft Dynamics Competency is designed for partners with proven expertise in designing and/or implementing enterprise resource planning (ERP) and customer relationship management (CRM) capabilities with Microsoft Dynamics technologies. The Microsoft ISV/Software Solutions Competency recognizes the skill and focus partners bring to a particular solution set. Microsoft Gold Certified Partners that have obtained this competency have a successful record of developing and marketing packaged software based on Microsoft technologies. In addition, Microsoft Gold Certified Partners enrolled in the Networking Infrastructure Solutions Competency have proved their competency in implementing technology solutions based on the Microsoft Windows Server™ 2003 operating system, with a particular focus on Windows Small Business Server 2003.

The Microsoft Partner Program was launched in December 2003 and represents Microsoft’s ongoing commitment to the success of partners worldwide. The program offers a single, integrated partnering framework that recognizes partner expertise, rewards the total impact that partners have in the technology marketplace, and delivers more value to help partners’ businesses be successful.

KVR Solutions, Inc. is a technology consulting company with proven expertise and experience. It is their mission to be the leader in enabling organizations to be more efficient and effective through the intelligent application of technology.
